THE
NEWARK COLLEGES
OF
RUTGERS UNIVERSITY

This Encore is Dedicated....

TO THOSE early architects of the Newark Colleges who envisioned a House of Learning where dwellers could strive to widen the bounds of human knowledge;

TO all those builders who for many years labored to assemble and shape the stones that went into the structure;

TO all those who, at present, are engaged in enlarging that House of Learning and seeking new ways in which it may serve the community.

THE BALLANTINE BREWERY, LOOKING DOWN RECTOR STREET FROM FRONT STREET, NOW KNOWN AS McCARTER HIGHWAY

The partnership of Patterson and Ballantine which was located at 514 High Street in 1840 was the predecessor of P. Ballantine & Sons of today. From 1846 to 1849, the business was conducted by Peter Ballantine himself. Later he purchased the property at 137 River Street and it was there that the first combined brewery and malt house began operations in 1849.

As a result of growing demand, in 1871 a new and larger brewery was built on Front Street, now known as McCarter Highway, on the present site of the College of Arts and Sciences.

Brave Beginning

ON OCTOBER 5, 1908, thirty students met in a room on the fourth floor of the Prudential Insurance Building in Newark to attend the initial session of the first class of the New Jersey Law School. This meeting was also the brave beginning of the Newark Colleges of Rutgers University.

Although a modest venture, the organization of the first class required a great deal of planning on the part of Richard D. Currier who was aided by Percival G. Bernard and Charles M. Mason, the latter becoming the first Dean of the New Jersey Law School. Primarily, however, it was Mr. Currier who had conceived the need for a law school in New Jersey, and who had given his time and effort to bring it about. To encourage the new project, a group of civic-minded men, Frederick Frelinghuysen, former president of the Mutual Benefit Company, the Honorable James E. Howell, former vice-chancellor of the Court of Chancery in New Jersey, and Edward B. Duffield, former president of the Prudential Insurance Company, lent their support and constituted the first advisory board.

The confidence of these men in the undertaking was soon demonstrated. In order to meet the increasing demands for admission, larger quarters had to be provided. Consequently, a three-story house at 33 East Park Street was purchased in December, 1908. Gradually, other units in the vicinity were secured so as to accommodate the growing Law School. The original building, together with the additions, underwent a thorough remodelling which eventually resulted in a complete consolidation of all the units into one building. In 1921, a new auditorium was erected in the rear of the School.

PRUDENTIAL BUILDING

763 Broad Street, Newark

These facilities had become inadequate by 1927 when there was an urgent need for physical expansion, and the former site of the Ballantine Brewery at 40 Rector Street was purchased by the New Jersey Law School. The original buildings on East Park Street were sold to the Public Service Corporation (and were later demolished) while the New Jersey Law School moved to its new home on Rector Street in 1928 and 1929.

During its process of expansion, the Law School had already broadened its scope. The Seth Boyden School of Business had been organized in 1929, while the Pre-Legal Department, which had been created in 1926, was formally incorporated into Dana College on April 2, 1930.

But the founders were not yet content. They wanted to expand what had originally been solely a Law School into a University that would serve the Newark metropolitan area. This goal, which had always been foremost in the mind of Mr. Currier, was achieved by the merger of the above three schools in May, 1933, under a single Board of Trustees and President Frank Kingdon. In 1935, these three schools were added to the already existing Newark Institute of Arts and Sciences (founded in 1910) and the Mercer Beasley School of Law (founded in 1926). The new institution took the name of the University of Newark and began its program of furnishing higher education to the Newark community. The University of Newark was now in a position to confer the degrees of LL.B.; A.B. in the Humanities, the Natural Sciences, and Social Sciences; and also the degree of B.Sc. in Business Administration.

Another transformation occurred in 1946 when the New Jersey State Legislature passed an act merging the University of Newark with the State University of New Jersey which had been created the preceeding year by another legislative act that designated Rutgers University as the State University of New Jersey.

This affiliation brought about an increase in the number of buildings occupied by the Newark Colleges. The Law School has taken its quarters in the old Ballantine Mansion at 37 Washington Street, with additional classrooms in the remodelled coach-house on 106 Plane Street at the rear of the Mansion. The College of Arts and Sciences has remained in the Ballantine Building, at 40 Rector Street. The School of Business Administration occupies the modern four-story office building at 18 Washington Place, and a second building at 63 Washington Street. Its administrative offices are located at 14 and 26 James Street. The building at 15 Lombardy Street which has been loaned to the University is occupied by the Reading Clinic and the Division of Special Education. The administrative staff and the Faculty have increased in personnel; a new office, that of the Dean of Students, has been established at 41 Rector Street. The interior of the 40 Rector Street building was partly remodelled in 1947, and a new chemistry laboratory was added. This work of remodelling is still in progress.

It is difficult to believe that just forty years ago the Newark Colleges had their beginnings in a single classroom with a handful of students and a limited faculty. Today, they comprise 2,200 students, a faculty of more than 100 professors, and an administrative staff of 50. We look forward to an ever-increasing role of this unit of Rutgers University, which already holds a prominent position in the field of education and is rendering a great service in preparing its students to be leaders in the welfare of the community.

PRESIDENT OF RUTGERS UNIVERSITY

Looking Ahead

THE FUTURE of Rutgers University in Newark lies in the extent of its services to the community. The measure of these services is indicated in part by the record enrollment of today, an enrollment which is expected to increase appreciably in the years just ahead. This growing demand must be met by an expanded physical plant, an increased faculty, and a more comprehensive educational program. As a young and vigorous institution, the Newark Colleges of Rutgers University are ideally suited for such expansion.

During the next few years, the schools already established at the Newark Colleges of Rutgers can be expected to grow according to the plans drafted during the immediate post-war period. The entire building on 18 Washington Place will be available in the Fall term of 1948. The Rector Street Building, taxed to capacity, is already expanding into other structures. The movement to the Washington Park area will continue. The pressing need for a student union building to house an auditorium, gymnasium, lunch-eon facilities, recreation rooms, and student organization offices cannot be long deferred.

The expansion of the educational programs at Rutgers University in Newark is already indicated by the action of the New Jersey State Legislature in authorizing a graduate school of social work for the state. This school will almost certainly be located in Newark. The needs of the community call for the establishment of both medical and dental schools which may be located near, if not within, the Newark Colleges group.

The outlook for the more distant future can be but a vision to those of us in the class of 1948. This vision reveals a great educational area on the western side of Washington Park. Huge buildings, housing the latest innovations for classrooms, laboratories, athletic facilities, and offices will rise in this area. Dormitory facilities will be available for those who come from great distances to attend the graduate and professional schools. In short, our vision is an educator's dream of what the Newark Colleges of Rutgers University should look like in the near future. Whether or not our vision is transformed into reality depends to a great extent on ourselves, the other graduates of the Newark Colleges of Rutgers University, and the alumni of those schools who made the brave beginning. We are the best judges of the value of our education. To the extent that we can make this value apparent to the community, our vision will materialize. The need is certainly present.

Dr. Robert C. Clothier receiving the "Outstanding Citizen of New Jersey Award for 1947" from Chairman Leonard Dreyfuss, with Governor Alfred E. Driscoll looking on.

Business Luncheon Conferences

RECOGNIZING the educational as well as the practical value of a program whereby the students of the School of Business are given an opportunity to meet the leaders of industry, business, and government, Dean Esterly and the Faculty of the School of Business have sponsored a series of Business Luncheon Conferences. These have become an integral part of the school's program. Professor Louis P. Starkweather has acted as chairman of the Faculty Committee in charge of this year's series. By securing national figures as guest speakers the luncheons have brought about increased student participation and public interest in the programs.

Guests invited to speak at the Conferences have been a representative group of prominent American businessmen and government officials in the fields of marketing, finance, economics, management, and other phases of business. In addition to the principal speakers, businessmen of the greater metropolitan area are invited to attend the Conferences and sit with the student body. This system has showed that it has several advantages, in that it gives the students the opportunity to talk with prominent men about their businesses; it gives the business man an opportunity to meet the students; and it gives the students an opportunity to develop poise and facility in entertaining and talking with outstanding executives.

The Business Luncheon Conferences are handled entirely by the students. The chairman, toastmaster, and table hosts are students who have been chosen on the basis of scholastic achievement and extra-curricular activity.

The Conferences are brought to the attention of the public through the press and radio. The newspapers in the metropolitan area have given the Conferences a great deal of publicity. In addition, Stations WNJR of Newark and WCTC of New Brunswick have broadcast the proceedings of the Conferences and have rebroadcast the programs on the same evening of the conferences.

Encore

OUT OF A SPIRIT of friendly emulation, the staff of **Encore '48** has tried to present the best yearbook in the history of the Newark Colleges.

The staff had several aims in mind; first of all, it tried to make the Yearbook available to all students rather than offer a publication designed only for seniors, as has been the custom in the past. It has attempted to make the **Encore** a yearbook which depicts University life and which embraces all activities of the school. Whenever possible, lengthy copy has been replaced by additional photographs both formal and informal.

In the past, each yearbook staff has had to start from scratch, borrowing equipment for all purposes. This year, however, has seen the establishment of permanent facilities for the **Encore** which include a typewriter, desks, and file cabinets. We hope that the staffs of the yearbooks of the future will benefit from this pioneer work, and will find the files of cuts, articles, and art work an aid in the preparation of other editions.

It seemed most fitting that the theme of this year's **Encore** should be the development and expansion of the Newark Colleges from their brave beginning. The staff hopes that this expansion is one which will continue, so that the youth of New Jersey will be able to benefit from the rich educational resources to be found in Rutgers University.

Observer

THROUGHOUT THE YEAR the **Observer** staff has been consistently striving for the general improvement of the school newspaper. Experiments with various styles of make-up have been made, the pictorial coverage has been expanded, and the entire staff has been enlarged.

In the past, the paper has operated with equipment which was either borrowed or rented. This year the **Observer** has purchased its own typewriters, desks, and filing cabinets.

In its endeavors to stimulate student interests in affairs of the school, last November, the **Observer** sponsored a Sports Rally and in March held a ping-pong tournament in which more than 50 students participated. In addition, the newspaper did much to invigorate the election campaigns for the various student councils, and campaigned for the acceptance of the school constitution.

As a student newspaper, the **Observer** has tried to perform faithfully its function of disseminating news of interest to the students. In accordance with this policy, from time to time, the newspaper has conducted information polls, and has started discussions on controversial issues of the day.

Scroll

EACH FALL, **The Scroll** makes its appearance for the benefit of the freshmen of the Newark Colleaes. This publication tries to shorten the period of adjustment which each new member of the student body must undergo. **The Scroll** introduces the various activities and other facilities available for the students, as well as members of the faculty, administration, and some of his upper-class fellow students.

The freshmen can also find Frosh Regulations, imposed by the Sophomore Class, in pages of **The Scroll**, and for that reason, it has come to be known as the "Freshman Bible". It is distributed without charge to the newcomers.

Chess Club

THE CHESS CLUB, organized early in the year, has presented to the students of the Newark Colleges an opportunity for intellectually stimulating entertainment, as well as encouragement to beginners and help to experienced players who are seeking to improve their game.

This year the club did not participate in interscholastic competition. A team which will represent the Colleges during the year 1948-1949 will be selected at the beginning of that term.

During their short season, the members have played matches against the Faculty, and have held several informal tournaments with nearby colleges.

Debating Team

THE DEBATING SOCIETY of the Newark Colleges of Rutgers University, reorganized last year, has expanded its debate schedule and enlarged its membership.

The purposes of the Debating Society are to create and promote interest in public speaking and debating with the aim of ultimately engaging in organized, competitive intercollegiate debating.

During the year, debates were held with the College of Arts and Sciences in New Brunswick, Temple, CCNY, NYU, Columbia, Fodham, St. Joseph's, Seton Hall, Drew, and others.

Four members of the Debating Society have been elected to Tau Kappa Alpha, National Forensic Honor Society. They are William Pearson, George Cummins, William Burke, and Seymour Vice. Dean Herbert P. Woodward and Dr. Stephen D. Stephens are honorary members of the society.

Under the supervision of Dr. David Potter, the debaters have proved themselves to be quite proficient. Not content with this, however, they plan to expand the schedule next year. It is hoped that in the future the Debating Society will be able to work in cooperation with the Public Speaking Department.

THE DRAMATIC SOCIETY of the Newark Colleges, the Mummers, has had three workshops since its establishment. In 1930 the Mummers' Theatre was located in the present Physics laboratory; in 1935 the workshop moved to Fulton Street. From 1937 until 1947, Room 32 of the Rector Street building served as the "Little Theatre". Here the Mummers presented their performances for their own enjoyment as much as for the audience. But in 1947 they became homeless once more when that theatre was converted into a laboratory.

The past year has seen the Mummers engaged in a search for a fourth home. In spite of this handicap, the Mummers are preparing a three-act play, "Out of the Frying Pan."

In 1946, the Mummers initiated the first Inter-Collegiate Drama Tournament among the colleges of the Northern New Jersey area. During 1947-48, the organization was active in attempts to revive this drama competition.

Although all students are eligible to participate in the Mummers' activities, a member must earn 50 credits of service in the club before he can be called a true Mummer. These credits accrue through participation in plays or skits presented at meetings, stage assistance, and any other work which is involved in presenting stage performances.

Newman Club

THE NEWMAN CLUB is an organization which has set up as its objectives the fostering of the spiritual, intellectual, and social interests of the Catholic students of the Newark Colleges of Rutgers University.

Organized in 1937, the Newman Club suspended operations during the war years, and was reactivated in 1945. The Newark Chapter was accepted into the New York Federation of Newman Clubs in 1946 and in this capacity has taken an active part in New York Province activities.

The official installation of members by the New York University Decree Team was held in October, 1947. As usual, the most important events during the school year were the Fall and Spring Communion Breakfasts. Discussion groups, led by Father Collins of St. Benedicts, met in monthly meetings to discuss topics of interest to the members.

The year 1948 saw the birth of the Newman Club Monthly newspaper. A number of dances, and the annual Christmas party were held during the past year.

Photography Club

ONE OF THE NEW organizations to appear on the scene this year was the Photography Club, which was organized in February, 1948. The organization aims to further student interest in photography. It was successful in setting up a photo darkroom in the Physics laboratory on the sixth floor and wishes to make available to student photographers the facilities of the photo laboratory in the school.

The club also intends to advance the use of visual aids in classroom work, a plan which has received warm support from members of the faculty.

Included in its projects for the coming academic year are various contents in various fields of photography. Instruction periods in photography will also be held for the benefit of the students.

Radio Workshop

THE RADIO WORKSHOP of the Newark Colleges was organized in the winter of 1947 and staged its initial production, a variety show, over station WNJR in May.

The aims of the Workshop are to present entertaining and informative broadcasts by the students of the Newark Colleges and to afford them an opportunity to gain experience and to demonstrate their talents in radio production and presentation.

The group will be heard over WNJR at intervals throughout the academic year.

Women's Association

UPON ENTERING the Newark Colleges, every women student automatically becomes a member of the Women's Association. The aim of this organization which has been functioning for some ten years, is to establish a bond of friendship between its members, to be generally helpful to new women students, and to preserve and maintain University loyalty and tradition.

Among the numerous activities planned and sponsored by the association were the annual Professor's Quiz, the Christmas Dance and Party, and lectures given by several prominent speakers. With the cooperation of other members of the student body, the Association also sponsored the Amateur Show which was held at the Newark Y.W.C.A.'s Sayre Hall in April.

Pan Hellenic Society

WHEN PI SIGMA PHI became the second sorority at the former University of Newark, the Panhellenic Association was reactivated in October, 1945, and from that date has been a most active extra-curricular unit.

The Panhellenic Association sets the sorority bid day, makes and enforces rush rules, regulates all matters pertaining to local Panhellenic life, and encourages sororities to take an active interest in University affairs for the common good.

The organization is made up of two representatives from each recognized sorority. Offices are held in rotation by the sororities according to the time of their establishment at the University. Each sorority is allowed one vote and elects from its two delegates the members who shall hold office. Provisional groups which have not yet been recognized by the Administration are, nevertheless, invited to attend all meetings and participate in discussions and activities.

Panhellenic highlights for the season included a Valentine's Day Dance given in cooperation with the Interfraternity Council and the Annual Spring Tea held in May

THE INTERFRATERNITY COUNCIL was organized in 1934 to act as an administrative body for fraternity policies at the University of Newark. The Council was reactivated in the Spring of 1946 after several years of inactivity necessitated by the War. Since then, it has been fulfilling its function as an important part of the college's campus life.

During the past academic year, the Council has organized interfraternity leagues in football and softball, for which trophies have been awarded.

With the cooperation of the Panhellenic Association, the Council sponsored a St. Valentine's Day Dance. Miss Helen Sulzback of Delta Phi Delta Sorority and her escort, Mr. Peter Scheoun, were selected as the "Valentine Day Couple". The climax of the evening was the presentation of trophies for 1946-1947 championships in football, to Sigma Beta Chi, ping-pong to Beta Sigma Rho, and softball to Glove and Stick.

In 1948-1949, the Council intends to continue its program of social and athletic events among the fraternities. It will also attempt to further its aim of promoting the highest standards of fraternalism among the men at the Newark Colleges.

C. A. S. Student Council

WITH THE ADOPTION of the new constitution for the government of the student body in December, 1947, the College of Arts and Sciences Student Council came into existence. The Council replaced the former Board of Control, which had represented students of both the College and School of Business Administration.

The function of the Council is to act as the governing body for student activities and to represent the undergraduate body in its relations with the Administration. In addition, the Council approves and recognizes all student activities in the College.

The fifteen members of the Council are elected at annual elections, and include the four class presidents, seven class representatives, and four Council officers.

Since the inception of the new Council, many additional organizations and extra-curricular activities have been introduced among the students of the College of Arts and Sciences. The Council has concerned itself with such problems as the institution of an awards system, supervision of class elections, and the formulation of class rules.

Social activities have also had an important place on the agenda of the Council. Several informal dances were held throughout the year, while a Christmas Dance was sponsored with the School of Business Administration Council. A Spring Dance was held in May.

The Council hopes that it has established a firm foundation upon which future Councils will be able to build a better school spirit and a wider range of student activities.

Board of Control

THE LAST BOARD OF CONTROL of the Newark Colleges came into office at a time when the entire administrative setup of the University was in a state of flux resulting from the merger of Newark University and Rutgers University. As a result of the merger, there was a complete separation of the Arts, Business, and Night Schools.

The Board of Control was composed of representatives of the various classes, with officers elected from the student body at large.

The Board's function was to sponsor and promote student activities as well as to provide a link between the Administration and the student body.

During its term of office, the Board drafted new constitutions for the Business and Arts Schools.

The Board served from May to December, 1947.

English Club

ORGANIZED IN 1936, the English Club has been one of the school's outstanding organizations

The club, which seeks to foster interest among the students of the Newark Colleges in literature and the allied arts and to encourage creative writing, provides programs of wide variety at its monthly meetings. This year the club resumed publication of the **Gallery**, a student anthology of creative work.

It has been the custom of the English Club to sponsor annual exhibits. In 1947 the History of American Journalism was represented through a series of typical exhibits, and a Lincoln exhibit was shown this year.

This spring, the Tenth Annual Poetry Reading Contest, acknowledged by well known literary figures as a worthy accomplishment in fostering interest in the reading of poetry, was again sponsored by the English Club.

In addition to the annual Christmas season pilgrimage to hear Handel's **Messiah**, the club sponsors parties to concerts and plays. Last fall a boat ride to the Roosevelt Memorial at Hyde Park was included in the activities.

The English Club Bulletin, published monthly during the school year, contains notes of interest to members as well as general English Club information.

Glee Club

SINCE it was first organized in October, the Glee Club has been singing its way along, under the able direction of Dr. Alfred Mann. Its first public performance was at the Women's Association's Christmas Party, when the Glee Club entertained the merry-makers with traditional carols. The Glee Club also sang at the Baccalaureate Service in June.

The members hope to continue their programs in the coming year and to bring together those students who are interested in vocal music. Plans are being made to increase both the size and repertoire of the choral group.

Music Society

THE MUSIC SOCIETY of the N. C. R. U. was established in November, 1947. This organization endeavors to promote and to create interest in good music by discussing and listening to recorded works. The Music Society also arranges for group attendance to concerts, operas, and recitals which are presented in the Newark area.

At its weekly meetings, music from the College record collection is played. Members of the Society discuss the structure and other important aspects of the music on the program.

The important event of this year was the presentation of Handel's *Messiah* to the students of the University. It is hoped that in the future the Society will be able to sponsor musical activities for the enjoyment of the student body.

Science Society

THE SCIENCE SOCIETY of the Newark Colleges brings together students of common interests for the exchange of ideas and for various social and intellectual activities not included in the College's curricula. The Society provides the opportunity for students to hear prominent scientists and lecturers discuss their specialties in the scientific field.

During the past year the Society has heard lectures by Dr. Benjamin Sonnenblick on "The Aspects of Gastric Cancer"; Dr. I. Fankuchen on "X-Ray Diffraction as a Tool in Biology and Chemistry"; Dr. Frank Dunnington on "Atomic Fission"; Dr. James Allison, Jr. on "Protein Metabolism"; and Dr. Horace Wood on "Medical and Dental Graduate Schools." The Society also made a field trip to the Hoffman-La Roche plant in Nutley to witness the manufacture of Vitamin B-1.

Social Science Club

WITH THE REACTIVATION of the Social Science Club, originally organized in 1941 but dormant since 1945, students interested in the social sciences are given the opportunity to get together and discuss social problems.

The club serves also as a medium for the expression of the views of the membership regarding the educational practices and policies of the College. The administration recently reviewed a resolution from this organization outlining the serious need for faculty advice and counseling for students as well as for clarification of pre-requisite requirements in specific advanced courses in the Social Sciences Division. Spokesmen for the group have discussed these problems with college authorities and have pledged active co-operation in effecting proposed reforms.

In addition to sponsoring outside lecturers on topics of interest to Social Science majors, the club serves as a clearing house for information on admission to various graduate schools. A comprehensive file on available scholarships, fellowships, and scholastic prizes is maintained.

With the basic work of reorganization successfully accomplished, the club looks forward to expanding its activities as spokesman and sponsor.

S. B. A. Student Council

THE STUDENT COUNCIL of the School of Business was formed under the Articles of the Student Government Constitution, enacted through a student vote in December, 1947.

The council's function is to perform those duties necessary to the regulation and guidance of student activities, and to represent the students to the Administration.

The Council has sponsored dances, formulated rules for the various special interest clubs, and has tried to coordinate the activities of these clubs. In addition, the Council held a reception for incoming first-year men to provide an opportunity to become acquainted with the Faculty and Administration of the School of Business.

In its first year, the Council has put many plans into action. Because of the limited period of adjustment to the new student governing system, it was forced to shelve many of its contemplated activities. However, it is the hope of the present Council that future student governing bodies shall be able to put them into effect.

S. B. A. Activities Committee

THE SCHOOL OF BUSINESS ACTIVITIES COMMITTEE was originally organized for the purpose of instituting special interest clubs. The committee, elected by the student body of the School of Business, immediately undertook a survey to determine the types of clubs which would interest School of Business Administration students. As a result of the survey, the Accounting, Finance, Marketing, and Management Clubs, and the Queen's Songsters were successfully organized and are now the major activities of the School of Business Administration.

The last official action of the committee was to arrange for a referendum on the new Student Government Constitution, and the subsequent election of new Student Councils under this constitution.

As originally constituted the School of Business Activities Committee consisted of: Julia Andreach, Russel Baker, Ruth Bamford, Bruce Blakeslee, Bernard Bukarest, Eamon Devlin, Victor Luth, Charles McAloon and Edward Smykay.

FIRST ROW: Robert Schechter, Edward Smykay, Bob Topping, Walter Cogan. SECOND ROW: Russell Baker, Robert Brown, Robert Brunner, George Stryker Jr., Arthur Katz.

Accounting Club

THE ACCOUNTING CLUB now in its second year strives to stimulate interest and encourage creative efforts in the field of accounting beyond the required work of the classroom.

During the past year, the club heard guest speakers on varied topics such as, C.P.A. regulations, the Business School Work Study program, and employment opportunities in the fields of both Public and Cost Accounting. Field trips to the International Business Machines Corporation, and a New York C. P. A. firm enabled the members to view accountants actually at work.

Mr. Norman Cogliati, Faculty Advisor, was directly responsible for maintaining the keen interest of the students in all club activities throughout the year.

The annual club banquet was held at the Military Park Hotel on March 22, 1948. Mr. Marshall Thomas, Vice President of the New Jersey Society of Certified Public Accountants, was the guest speaker.

Finance Club

IN ITS SECOND YEAR, the Finance Club has enjoyed a steady growth of membership and an increasing amount of activity. Much of the club's success is due to the efforts of Professor Louis P. Starkweather, Faculty Advisor, who arranged many of its programs. Trips through prominent brokerage houses, the New York Stock Exchange, and lectures by many prominent speakers were included in this year's program.

At the club banquet, held annually at the Robert Treat Hotel, Mr. Charles Sheppard of the Graduate School of Business Administration of New York University, was the principal speaker. His talk on the "Opportunities in the Investment Banking Field" was informative to the students interested in entering the field of Finance.

The chief aims of the club are: to foster the study of finance, to encourage the association of students for their mutual advancement, to promote closer affiliation between the financial world and the students of finance, and to further a fuller understanding of finance in relation to the community.

Management Club

THE MANAGEMENT CLUB, founded in 1947, became almost immediately a student chapter of the Society for the Advancement of Management. It had, at that time, a nucleus of sixteen members who joined the S. A. M. as student members. At the annual business meeting of the Northern New Jersey Chapter of the S. A. M., held at the Essex House in May, 1947, the Student Chapter Charter was formally presented to the past president, Mr. William Muirhead. The framed charter now adorns the office of Dr. John McClure, Chairman of the Management Department and Faculty Advisor of the club.

During the past year, the club has supplemented its class work with an array of speakers and a series of field trips. Men prominent in the field of Personnel, Industrial Relations, Time and Motion Study, and Job Analysis have given interesting talks to the members. Trips to various types of plants in the Newark area have been made with the purpose of seeing actual phases of management in operation.

Marketing Club

THE MARKETING CLUB was organized in March, 1947, through the efforts of the S. B. A. Activities Committee.

Its purpose is to further extra-curricular activities in the field of marketing and to supplement classroom theory with actual business experience through the media of films, field trips, and talks by men prominent in the field.

Some of the outstanding events of the current semester have been a series of talks by Mr. Edward Kienle, of the National Association of Wholesalers; Mr. Paul Slater, of the Prudential Insurance Company of America; Mr. H. Kraus, of L. Bamberger and Company, and Mr. John C. Gardner, President of the New York Coffee and Sugar Exchange. Members of the club also took several field trips to firms in and around Newark.

The club also sent representatives to radio forums at the invitation of the Advertising Club of Seton Hall.

Queens Songsters

WITH THE INTENTION of bringing into the student body of the School of Business the "school spirit" associated with college life, the Queen's Songsters was formed.

In February of 1947, eight charter members formed the nucleus of this choral group, which helped to promote good fellowship and cooperation through the medium of song.

The Songsters have become an important phase of the School of Business Luncheon Conferences. They have achieved renown through their singing of typical Rutgers' selections over radio station WNJR during these conferences.

DELTA PHI DELTA Sorority, oldest active sorority in the Newark Colleges, was organized in February, 1934, by eleven students of Dana College and the Seth Boyden School of Business.

The Sorority was founded to cultivate and maintain an organized center of thought, action, and fellowship among the women students of the University, and to stimulate an interest in those things that will render the members helpful to one another and useful to the University.

In 1935, the Sorority helped to form the Inter-Sorority Council, which later became the Panhellenic Association.

Traditional activities this year included a formal Thanksgiving Eve Dinner-Dance which was held at the Condor Restaurant. In addition, there was the annual Christmas Party held in the Newark Y.W.C.A. and a theatre party. The Sorority also participated in the Panhellenic Tea and sent packages to needy students in Europe.

THE NEWEST SORORITY to appear on the Newark Colleges' campus is Eta Nu Tau Sorority, organized in the fall of 1947. The charter members were largely members of Iota Alpha Pi which was disbanded to organize a local sorority.

The Sorority was organized to perpetuate friendships of college days among schoolmates and to broaden their cultural and social activities. To accomplish these aims, a program of cultural, social, and charitable activities has been undertaken by the group.

Since this was the year of its establishment, Eta Nu Tau has been primarily occupied with the details of organization. In the years to come the group hopes to expand its activities and membership.

ORGANIZED by a small group of women students in April, 1945, Pi Sigma Phi now boasts full recognition as one of the three full-fledged sororities presently functioning at Rutgers.

Completely inter-racial and non-sectarian, this sorority is proud of its earnest efforts to build up character and good fellowship by striving toward the attainment of better understanding among all races and creeds which are represented at the Newark Colleges. Another aim of Pi Sigma Phi is to further the spirit and characteristics of leadership among its members, for the improvement of the University and the community.

Important events of the 1947-1948 season included lectures on the meaning and aims of tolerance and goodwill, by Professor Richard Henry of the Newark Colleges and Mr. Paul Crawford, a member of the staff of the Fuld Neighborhood House. Included in the activities of the Sorority's social calendar were a swimming party and the annual anniversary dance.

THE INTERNATIONAL FRATERNITY of Beta Sigma Rho chartered its Theta Chapter at the University of Newark on May 11, 1935. Beta Sigma Rho is founded on the traditional ideals of fraternalism as known in the United States. It fosters the activities of its members in both academic and social affairs at the Newark Colleges. The Fraternity is located in quarters at 488 Broad Street, acquired in 1946.

During the current year the Fraternity has had a busy schedule of social, athletic, and educational events. The outstanding affair was the Thanksgiving Eve Dinner-Dance, held at the Four Towers Night Club. Many house parties were also held at the Fraternity House.

The traditional Beta Sigma Rho "Kaffee Klatches" have been held at regular intervals throughout the year. For the first time, non-campus speakers were invited to address the Fraternity. Current events or "pet" topics of the speakers were discussed over coffee and doughnuts.

Delta Sigma Pi

THE BETA OMICRON CHAPTER of the International Fraternity of Delta Sigma Pi was installed at the Newark Colleges in 1937. The chapter was established from a local fraternity, Phi Sigma Beta, which had been founded in 1931.

Essentially a fraternity for the students of the School of Business Administration, this group seeks to encourage scholarship and the association of students for their mutual advancement through research and practice in the field of business. It tries to promote a closer affiliation between the commercial world and business school students; it constantly attempts to advance a higher standard of commercial ethics and culture in the community.

During the past year, Delta Sigma Pi has had many social and academic events. Included in the former were its rush smokers, initiation dinners, a Founder's Day formal dance, and an Annual Spring Formal. Monthly professional meetings were held, to which members of the faculty or local business leaders were invited as guest speakers. These meetings were open to interested student members.

Epsilon Lambda

EPSILON LAMBDA appeared at the Newark Colleges of Rutgers University during the fall of 1947. With the first election of officers and the formulation and submission of a constitution for administrative ratification on January 9, 1948, the organization took its place among the fraternal groups of the Newark Colleges.

Organized for the general purpose of cultural and social growth, the members of Epsilon Lambda have shunned, through constitutional provisions, the pernicious effects of sectarian or racial prejudice within their fraternity. It is also their intention to demonstrate through educational programs in individual example the practicability of harmonious relations among students of varying origins and environment.

Sigma Beta Chi

THE "EPHAMIA SOCIETY" of the Seth Boyden School of Business, organized in 1931, was the forerunner of Sigma Beta Chi Fraternity. The objectives of the organization are the fostering of fellowship and school spirit among its members and the encouragement of scholastic achievement among other students of the Newark Colleges by awarding prizes, scholarships, and granting financial aid to deserving students.

The Nathaniel O. Zimmelman Award is made to that student of public accounting who attains the highest scholastic average. The highest ranking junior in the School of Business Administration receives the Fraternity's gold "Ephamia Key" for scholastic standing and participation in extra-curricular activities.

The War forced the Fraternity into inactivity, but a few members managed to issue a publication, THE FRATERVANE, which kept the scattered members informed of one another's activities.

The Fraternity was reactivated in November, 1946.

Glove & Stick

THE GLOVE AND STICK FRATERNITY, which was founded in 1933, has as its objectives the promotion of friendship among students, the establishment of incentives to further scholastic achievement, and to provide cultural and social programs for the benefit of all members of the Newark Colleges.

This year the Fraternity has sponsored a headline series of speakers who presented stimulating analyses in the fields of philosophy, literature, and sociology.

These talks are open to the entire student body and are designed to promote new friendships among them, and provide a method of acquainting the students with the faculty of the three schools of the University.

Phi Beta Kappa

THE NEWARK section of Phi Beta Kappa, National Honorary Scholastic Society was inducted in March, 1948.

Twelve students were elected to the first group of Phi Beta Kappa formed in the history of the school. The initiation took place on March 24, 1948, at the New Jersey College for Women and included fifty-four members of the Men's College, New Jersey College for Women, and the Newark Colleges of Rutgers University.

Election to the society is contingent upon the maintenance of a grade average of 1.8 and a rating in the upper ten percent of the class.

Henry Bodner

Henry Bodner has been in charge of sports activities at the Newark Colleges for fourteen years. During this time his basketball teams have compiled an overall victory average of .600.

Prior to coaching, Mr. Bodner had been successful as a player. As a member of the Passaic High School basketball team which went through the All-Eastern tournaments at Chicago in 1927, he received the "All-Schoolboy" award for that year. As captain of the Panzer College basketball team, he was picked as a member of one of Garntland Rice's All-American Teams. Coach Bodner has also played soccer and was chosen All-Eastern goalie during his competitive years.

George Cukro

George Cukro, who fills the position of Physical Education instructor, is also coach of the Wrestling, Cross-country, Track, and Junior Varsity Basketball teams. Coach Cukro attended Mount Union College, Ohio, where he excelled in both football and track. He received his M.A. degree from Columbia University.

As coach at the Quantica Marine Post School, Columbia University, and Georgia Teachers College, he has earned a reputation not only for his coaching ability but also for his fine sportsmanship.

Morton Hellman

Morton Hellman has taken over the duties of coaching the tennis team of the Newark Colleges for the second straight year. In addition to coaching the tennis team, Mr. Hellman is a full-time instructor in Mathematics at the Newark Colleges.

Mr. Hellman learned to play tennis at his New York City high school. Upon his matriculation at City College of New York, Mr. Hellman joined the varsity tennis team where he was an outstanding player for three years.

Basketball

FIRST ROW: Arthur Forenza, Sidney Hasler, Jerry Kasper, Bernard Lauer, Herbert Fisher. SECOND ROW: Henry Bodner, Coach; Jerry Weinstein, Selwin Jacobs, Burton Geltzeiler, Herb Weiss, Pat Cordova, Marty Rubinstein, Dr. Charles Binder. MEMBERS NOT PRESENT: William Fuchs, Sheldon Isenberg, Jules Leboff, Robert Weigel.

THE N. C. R. U. CAGERS paced by big Burt Geltzeiler and Marty Rubenstein had a fairly successful season when the caliber of the team's opposition is considered. The Bombers won eleven games and lost twelve.

The defeats which N. C. R. U. suffered at the hands of such nationally known quintets as City College of New York, Rutgers University of New Brunswick, St. Francis, Seton Hall, and St. Joseph in no way detracted from the ability of the team. Since a victory over any of them would have been remarkable, the unexpectedly fierce fighting of the Bombers, even in defeat, added to the team's lustre.

Among the Bombers' victories were double triumphs over Paterson State Teachers and Montclair State Teachers. Single victories were registered over Drew, Bloomfield, Rutgers College of Pharmacy, Newark College of Engineering, American International, and Upsala.

Burt Geltzeiler led the Bombers in individual scoring with 255 points. Marty Rubinstein drew second honors with 202 points. Following in the order named were Pat Cordova, Jerry Weinstein, and Sid Hasler.

Coach Hank Bodner looks with optimism to next season. With a fine nucleus of lettermen for his 1948-1949 quintet, Coach Bodner hopes to come up with a surprise team which will bring honors to N. C. R. U.

Baseball

THE NEWARK COLLEGES baseball team was faced this year with many of the problems which plagued it in previous seasons: lack of a home field, conflicts between practice time and classes, and a lack of seasoned players from previous years. Despite all this, however, the team played heads-up baseball all season and managed to win two out of the ten games played.

Coach Hank Bodner called the first baseball practice for March 22, and he was greeted by a few veterans from last year's team and a host of newcomers. Coach Bodner carried a large squad all season so as to prepare for future competition. We expect that next year the season will begin with a strong nucleus of seasoned performers.

FIRST ROW: Lawrence Littman, Cosmo Altomare, Harry Epple, Joseph Calatozza, Alfred Cathcart, Mark Haskell. SECOND ROW: George Cukro, Coach; Donald Zadoff, Norman Root, Morton Broffman, Norman Miller, Charles Coughlin, Ralph Mancinelli, John Healy. MEMBERS NOT PRESENT: Samuel Abrahamson, Louis Avolio, Martin Edelston, Robert Gorman, William Gorman, Morris Kibrick, Howard Krohnengold, Charles Marcus, Ed Otto, Louis Rosler, Michael Walsh, Robert Ziers, Richard Zinkand.

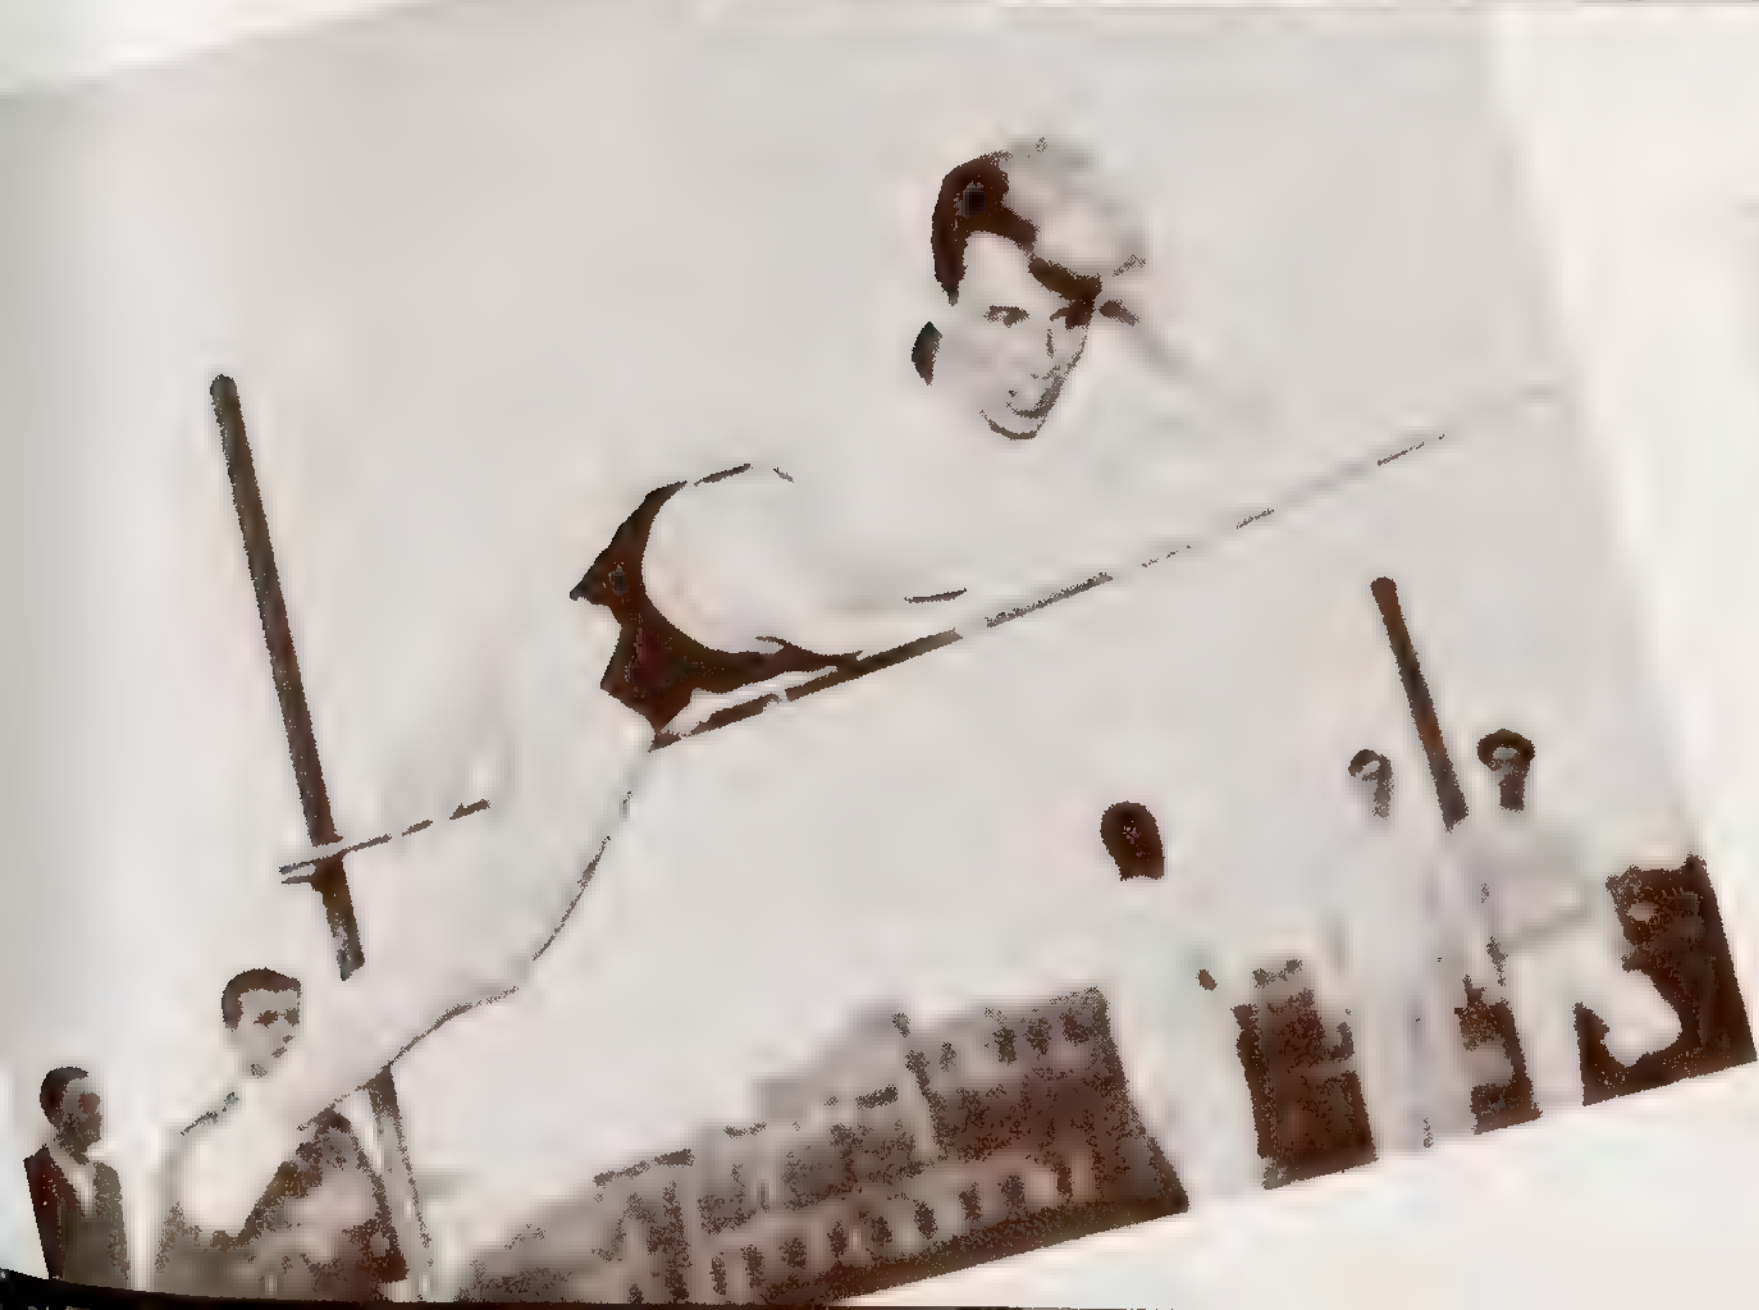

Track

This year, for the first time, the College of Arts and Sciences, the School of Business, and the College of Pharmacy combined to put a track team in the field.

After several weeks of practice, Coach George Cukro issued uniforms to twenty-one men. Because of conflicting schedules in the various schools, and other handicaps, the team won no matches this year. With this season's veterans, however, Coach Cukro hopes to give the Newark Colleges a winning track team next year.

For the first time in many years, N.C.R.U. was represented in intercollegiate wrestling. Despite the serious handicap of a limited schedule, the team showed much promise for future years.

George Cukro, coach of the team, devoted much of his time to teaching the fundamentals of wrestling to the grapplers. Don Zadoff, John Statts, Paul Stizza, and Norm Miller performed ably in all of their matches.

Coach Cukro will be looking forward to an expanded program for next year.

Cross-Country

The Squad

The cross-country team, first in the history of the Newark Colleges, engaged in five meets this year. Although it failed to register a victory, the team nevertheless established a basis for the continuation of the sport. Far from being discouraged by these losses, the members of the team showed a fine competitive spirit and finished each run regardless of their position.

During the course of the season many talented runners were discovered. Eleven men, most of them letter men at their former schools, competed.

By placing first among the N.C.R.U. entrants in five meets, Al Cathcart has shown himself to be fine material. Al will be available as a nucleus for next year's cross-country team, and Coach Cukro is confident that next year's squad will show great improvement.

Tennis

TWENTY-FOUR CANDIDATES for the N. C. R. U. tennis team reported at the first practice session of the season. The first few try-outs were held at the Brookdale Park Tennis courts with the team later moving to the East Orange Tennis club for subsequent practices. Members of last year's squad who returned were Seymour Grubel, Murray Schuhalter, Herbert Dear, and Alan Haas.

Although the team lost its opening game to Pratt Institute, it won the next game against Manhattan College. The victory over Panzer who subsequently defeated Army is an indication of the capabilities of the team.

The squad closed a successful season although it lost its final game to the Rutgers University team at New Brunswick. Coach Hellman believes that this year's team has set a standard that will serve as a mark for succeeding squads to shoot for. All of the squad will return next year except Captain Seymour Grubel.

Sports Rally

ON NOVEMBER 25, 1947 in the auditorium of the Parish House of the Second Presbyterian Church, the **Observer** sponsored the annual sports rally for the Newark Colleges. The cheerleaders led the students in the new cheers.

Coach George Cukro talked about the work of the Cross-country and Wrestling Teams and then presented letters to the members of the Cross-country Team. Coach Henry Bodner spoke about the coming Basketball and Baseball Teams. He stated that both teams were going to face the most strenuous opposition in the history of the school, but he felt sure that with the help of new material both teams would make a creditable showing. Dean Durand also spoke to the students on the importance of the support which the student body must give to each of the varsity teams.

Informally Yours, . . .
